Thailand 12 – 25 January 2023!

DIVE TRIP

Thailand as a tropical paradise offers warm weather and great visibility all year round. It borders 2 seas: the Andaman Sea on the west side and the Gulf of Thailand on the east coast. Both seas offer fantastic diving, with the Similan and Surin Islands in the Andaman Sea being the most famous. Richelieu Rock, an isolated seamount in the middle of the ocean, covered in gorgeous purple soft corals and magnificent sea anemone, will not disappoint. South of Phuket, dive into the beautiful seascapes of Hin Daeng, Hin Muang, Koh Haa and Koh Phi Phi. Gorgeous caverns and swim-throughs.

Some of the highlights to be seen underwater are Whale Sharks, Manta Rays, Black Tips Reefs Sharks, tiger Sharks, Zebra Sharks, Turtles, Barracudas, Sea Snakes, Octopus, Cuttlefish, Schooling Squids, Pegasus Fish, Frogfish, Moray Eels, Cowrie Molluscs, Nudibranchs, Seahorses, Scorpion fish, Cleaner shrimps, and Paper nautilus to name a few!
